BOUYGUES
CONSTRUCTION

Shared innovation

BE INNOVATIVE

We are helping to transform communities so that we can shape the world of tomorrow by developing innovative solutions and products.

BE RESPONSIBLE

In every action we take, we are guided by the environmental and social consequences, whether they affect our employees, our customers, our partners or our users.

BE COMMITTED

A global player in the construction sector, we contribute to regional development by creating value and jobs, supporting the major transformations impacting society.

SHARED INNOVATION

With our partners: engineering schools and universities, major industrial groups, start-ups, NGOs and charities, local authorities, incubators, etc.
